### An Enhanced Level Of Comfort Before And After Your Purchase

When it's time for a new indoor comfort system, you shouldn't have to sweat the decision of which manufacturer to choose. The legendary NexGen brand, trusted by generations for its performance and reliability, gives you one less thing to worry about. Choose NexGen brand APHM3 Packaged Gas Electric Unit with confidence, knowing you're getting the world-class engineering and good ol' American craftsmanship you've come to expect from the NexGen brand.

### Efficiency And Longevity Make This The Total Package

No matter which energy-efficient NexGen brand packaged heat pump you choose, you'll enjoy years of cost-effective, worry-free indoor comfort from a single, self-contained unit. Featuring quick and easy installation, as well as lifetime warranty\* protection, our packaged heat pumps can deliver heating and cooling capacity from two to five tons, and a Seasonal Energy Efficiency Ratio (SEER) of 14 and an 8.0 Heating Seasonal Performance Factor (HSPF).

### You'd Be Hard Pressed To Find A Better Compressor

Perhaps this packaged unit's most important component in terms of cooling efficiency and performance is the compressor — the heart of this system's summer operation. The NexGen brand APHM3 Packaged Gas Electric Units feature an energy-efficient scroll compressor, which is designed with fewer moving parts that result in lower energy use compared to units with reciprocating compressors.

### The Security Of The NexGen Brand's Amazing Lifetime Warranties\*

To truly seal the deal, the NexGen brand APH16H and APH16M Packaged Heat Pumps are backed by one of the best warranties\* in the industry. This unit features a Lifetime Compressor Warranty\* and a 10-Year Parts Lifetime Warranty\*. The longevity of premium NexGen brand products combined with this excellent warranty\* coverage offer you a level of purchase protection that's the stuff of legend.

\* Complete warranty details available on [www.nexgenairandheat.com](http://www.nexgenairandheat.com). To receive the Lifetime Unit Replacement Warranty (good for as long as you own your home) and 10-Year Parts Lifetime Warranty, in order to qualify for lifetime replacement warranty you need to be part of the X Protection Family. Membership must be current and up-to-date.

### Energy Efficiency

SEER or Seasonal Energy Efficiency Rating is a measure designated by the U.S. Department of Energy and gives you a good idea of the performance you can expect from air conditioners and heat pumps. At an up to 14-SEER cooling rating, the NexGen brand APHM3 Packaged Heat Pump can deliver up to 8.2 HSPF (Heating Seasonal Performance Factor). When you choose an energy efficient NexGen brand heat pump, year-round indoor comfort is combined with year-round savings.

### Quiet Comfort

Many homeowners may think the best packaged air conditioners are not seen or heard. To minimize operating sounds, we've combined quiet scroll compressor technology with a high-density foam sound cover, plus a fully-insulated blower compartment to provide unobtrusive performance well below those of air conditioners not equipped with these noise-reduction measures.

## The Next Generation in Home Comfort

THE IMPECCABLE REPUTATION OF THE  
FASTEST GROWING HVAC COMPANY

NexGen brand heating and cooling systems are a part of the enduring legacy of one of California's most recognized and respected companies. NexGen Air Conditioning Heating and Plumbing is synonymous with long-lasting, premium quality products – from home automation to heating and air conditioning equipment. To provide a truly exceptional customer experience we've partnered with the world's largest manufacturer for heating and cooling systems and they're made right here in the U.S.A.! Generations to come will continue to enjoy the dependable performance and

PRIDE**  
Designed, Engineered  
and Assembled in the U.S.A.

- ✓ Energy-Efficient Scroll Compressor**  
Using chlorine-free R-410A refrigerant, it provides years of reliable cooling comfort, 14-SEER cooling and 8.0 HSPF heating performance for lower energy bills compared to units with lower SEER and HSPF ratings. Scroll compressor design has fewer moving parts and uses less energy compared to reciprocating compressors.
- ✓ Efficient Cooling Capacity**  
Refrigeration-grade premium copper tubing and aluminum fin condenser coil configuration deliver outstanding heat transfer properties with R-410A refrigerant.
- ✓ All-Aluminum Evaporator Coil**  
Affords multi-position installation on either the ground outside your home or rooftop of your home.
- ✓ Heavy-Gauge Galvanized Steel Enclosure**  
Powderpaint finish protects your system from extreme outdoor elements.
- ✓ Quiet Operation**  
Fully-insulated blower compartment with convenient access panels, a high-density foam compressor sound cover.
- ✓ Self-Contained Package Unit Design**  
Affords multi-position installation on either the ground outside your home or rooftop of your home.
- ✓ Energy**
